

## Blue Team,

### Project description

An application that allows clients and architects to communicate information through a single portal.

### Client

Client creates project and gives description of project with accompanying photos, survey or comments.

### Architects

Architects can review projects and download info and upload design proposal and comments for clients review.

### Client and Architect

Both can submit new information during projects lifetime.

### Approver

A public planner that can be contacted to request project approval to planning legislation.
